BOSSY BUMPER

Promat's Newest Innovation for Cow comfort. The Bossy Bumper provides a buffer to protect the cows neck from injury. The bumper is installed directly onto the neck rail, to prevent neck injury and spinal lesions. When accompanied with Promat's leading range of cow comfort products, you will be helping your herd achieve total cow comfort.

BENEFITS

- Providing cushioning at critical/vulnerable contact points
- Protects cow's sensitive cervical vertebrae
- Assists in ensuring proper cow positioning in the stall

FEATURES

- Durable PVC covering provide long life
- Optimal density EVA foam inside to provide exceptional cushioning
- Concealed zipper offers ease of installation
- 39" long and available in multiple colors
