

# ROTARY

## Drum cleaner

**CASA's Rotary Drum Cleaner** are designed to separate products such as barley, wheat, corn, oats, soybeans and canola based on their size. **Several sieves are available for different grain types.**

The speed of the drum is electronically managed and the angle of inclination is also adjustable according to the grain. **The operation requires little energy.** Substance that are too big or small go through the system without causing any jams. **The sieves are self-cleaning.**

The sieves can be changed quickly using the side doors.  
 All sieves and drums, are self-cleaning.  
 A sample can be taken from the control point during the process.

## ROTARY DRUM CLEANER SPECIFICATIONS

TYPES	NUMBER OF SIEVES	DRUM DIAMETER	DRUM MOTOR POWER	RUBBLE PRE-CLEANING	FINE CLEANING	LENGHT	WIDTH	HEIGHT
ADC552	2	Ø 21 5/8"	1.5 Hp	4.5 t/h	3.5 t/h	70 7/8"	25 1/2"	31 1/2"
ADC553	3	Ø 21 5/8"	1.5 Hp	6.5 t/h	5.5 t/h	90 1/2"	25 1/2"	31 1/2"
