EDGE®2
CONTROLLER

Cumberland

Raise your best.

Monitor and manage all
CONTROL APPLICATIONS

Connect ventilation, cooling, heating, lighting and watering systems. Track feed inventory, consumption, and bird weight. Monitor ammonia, humidity, CO_2, air velocity and static pressure.

Functions Like a Smart Phone
Large screen, vibrant graphics and familiar "swipe" and "scroll" smart phone functions.

Improved Connectivity Saves Time
Integrated Wi-Fi.

Space Saving Design
Protected by redundant power supplies and communication paths for uninterrupted operation.

Eight Program Settings
Automate tasks and configure equipment settings based on production or environmental conditions.

Easier Navigation
Fewer "clicks" to get to a desired function.

Connect When You're on the Go
Connect to the controller 24/7 from anywhere using a dedicated app.

One Controller is All You Need
Control multiple buildings or rooms from a single EDGE 2 controller.

By-Pass Mode with the Push of a Button
Temporarily by-pass programmed functions with the push of a button.

EASIER
One less button to push

SAFER
Industry leading redundancy

FASTER
Controller boots up quicker

SMARTER
More data storage = more flexibility

EDGE 2 supports all major languages and is UL/CSA certified and CE approved.
